WORK EXPERIENCE

Misfits Market, Remote

Senior Software Engineer

Jan. '22 - Aug. '24

- Conducted code reviews for peers, mentored junior engineers, and served as primary Front-End expert and technical point of communication
- Served as lead engineer for multiple projects, wrote technical specs to better scope out strategy for building new features
- Research and evaluate new technologies to improve current system efficiency
- Used Datadog and Sentry to monitor, track and quickly fix customer facing errors
- Investigate and implement performance improvements such as image optimization and optimistic rendering

Software Engineer

Feb. '21 - Jan '22

- Designed, tested and built web and mobile features for customer account portal and marketplace using React and React Native
- Worked with product and designs teams to scope new features, improve existing features and ensure the highest quality product was delivered to our customers

Searchspring, Denver CO

Front-End Engineer

Feb. '20 - Feb '21

- Integrated search and merchandising software onto e-commerce websites using Angular.js and Sass
- Developed custom site functionality using both Javascript and jQuery
- Delivered 4.5 completed sites per month, exceeding goal set by leadership
- Implemented mobile/cross-browser testing to ensure sites perform as expected
- Participated in daily standup, weekly code reviews, wrote documentation and effectively communicated technical issues to customers

Freelance Software Developer

May '19 - present

- Utilized technologies including React, Javascript, HTML and CSS to design and develop websites for clients, including USModernist and Otus asio Tours
- Utilized React and REST APIs to develop features for property management application including authentication, property listing, facility maintenance and customer and lease management

VOLUNTEER

Code for Denver, Denver CO

Brigade Co-Organizer

Oct. '20 - Jan '21

- Participated in leadership meetings to guide direction of the organization, discuss budget and plan events
- Facilitated bi-weekly member meetings of 10-20 people, lead new member on-boarding and served as a community resource for questions and support
- Built out external documentation on Notion.so to improve brigade organization

Software Developer

Jun. '20 - Jan '21

- Collaborated on projects for Denver based non-profits and local government
- Used Javascript libraries react-vis and Semiotic to create data visualizations
