WORK EXPERIENCE

Searchspring, Denver CO   Feb. '20 - present
Front-End Engineer
- Integrated search and merchandising software onto e-commerce websites using Angular.js and Sass
- Developed custom site functionality using both Javascript and jQuery
- Delivered 4.5 completed sites per month, exceeding goal set by leadership
- Managed project load successfully and completed the most sites of any team member between March - December 2020
- Implemented quality assurance process as well as mobile and cross-browser testing to ensure sites perform as expected prior to delivery
- Participated in daily standup and weekly code review with team, wrote documentation and effectively communicated technical issues to customers

Freelance Software Developer   May '19 - present
- Utilized technologies including React, Javascript, HTML and CSS to design and develop websites for clients, including USModernist and Otus asio Tours

Health Fitness, Cisco Systems, Raleigh NC   Oct. '18 - Nov. '19
Interim Marketing Coordinator/Health Fitness Professional
- Created and updated marketing materials using HTML, CSS, Canva, Gimp

VOLUNTEER

Code for Denver, Denver CO
Brigade Co-Organizer   Oct. '20 - present
- Participated in leadership meetings to guide direction of the organization, discuss budget and plan events
- Facilitated bi-weekly member meetings of 10-20 people, lead new member on-boarding and served as a community resource for questions and support
- Built out external documentation on Notion.so to improve brigade organization

Software Developer   Jun. '20 - present
- Collaborated on projects for Denver based non-profits and local government
- Used Javascript libraries react-vis and Semiotic to create data visualizations

PROJECTS

Vesta App (Property Management Application)   Aug. '19 - Feb. '20
katiewrennhansen.com/projectpages/crm.html
- Utilized React and REST APIs to develop features including authentication, property listing, facility maintenance and customer and lease management
- Collaborated with Back-End Developer and practiced Agile Scrum methodology by organizing user stories into sprints, tracking tasks via Kanban and holding frequent meetings to reassess strategy
